PER-RESIDENCE
CERTIFICATION

Application and organizational credentialing fees are each paid once. The per-residence fee applies to every home you certify.

What each fee covers.

FEE	WHEN IT'S DUE	WHAT IT COVERS
Application Fee	At mutual agreement to begin certification	Initial intake, preliminary review, and starting the certification process
Organizational Credentialing	At the start of the certification process	Organizational review, policy and documentation evaluation, and administrative oversight
Per-Residence Certification	Upon certification of each home	Certification of each recovery residence operating under the organization

Estimate your cost. An organization certifying three homes would pay $\$150 + \$300 + (3 \times \$200) = \$1,050$ total. Your total depends on how many residences you certify.
